## EXPERIENCE

### Luminar Technolab

Web Development Intern

Nov 2024 - Present, Trivandrum,  
Kerala

#### Full-Stack Web Development and Real-Time Projects

- Trained in HTML, CSS, JavaScript, React.js, Node.js, Express, MongoDB, and Git as part of a full-stack development program.
- Built multiple real-world projects like Zynchr (HR portal), CopConnect (Govt. service platform), and an E-Commerce website using Redux and Tailwind CSS.
- Implemented authentication, REST APIs, state management, CRUD operations, and third-party integrations using tools like Multer and React Hooks.
- Used GitHub for version control and followed Agile development principles in collaborative team settings.

## PROJECTS

### CopConnect - Govt. Services Platform (MERN Stack)

- Government and staff manage criminal data; visitors book appointments.
- Local civilians can file complaints online.

### Project Fair Full-Stack Web Application (MERN Stack)

- Users can add, edit, and delete project details; supports file uploads with Multer.
- Authentication and authorization implemented using JWT; projects displayed with responsive UI.
- Built with MongoDB, Express.js, React.js, and Node.js for seamless full-stack performance.

### Zynchr - HR Portal (React.js, Bootstrap, JSON Server)

- Admin can manage employee data, view calendar, and schedule meetings.
- Employees can log in, apply for leave, and get approvals.

### E-Commerce Website (React, Redux, Tailwind CSS)

- Features product browsing, cart management, and payment simulation.

## SUMMARY

Skilled web developer with experience in full-stack development, project management, and data validation, with a strong teamwork focus.
